Aarav Sharma

B.Tech Computer Science Student | aarav.sharma@example.com | +91 98765 43210 | Bhopal, India

CAREER OBJECTIVE

Computer Science student interested in software development, artificial intelligence, and backend engineering. Seeking an entry-level Software Developer role where I can apply Python, FastAPI, databases, and machine learning skills.

EDUCATION

B.Tech in Computer Science and Engineering — ABC Institute of Technology (2023–2027)
CGPA: 8.4/10

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL
Backend: FastAPI, REST APIs
Database: SQLite, MySQL
AI/ML: Scikit-learn, Pandas, NumPy
Tools: Git, GitHub, VS Code, Postman

PROJECTS

AI Water Demand Prediction System
Built a machine-learning system to predict water demand using historical consumption and weather-related features. Compared Linear Regression and Random Forest models and selected Random Forest based on validation performance. Created a FastAPI backend for prediction requests and stored results in SQLite.

Student Task Management Web App
Developed a web application for creating, updating, and tracking student tasks. Implemented REST endpoints using FastAPI and used SQLite for persistent storage.

INTERNSHIP EXPERIENCE

Python Development Intern — TechNova Solutions
Worked on backend API development, data validation, debugging, and basic database operations. Collaborated with a small development team using Git and GitHub.

ACHIEVEMENTS & ACTIVITIES

- Participated in a college-level hackathon focused on AI-based solutions.
- Presented a technical project to faculty and student teams.
- Regularly practices data structures, Python programming, and interview communication.
